In case of a tie in the single workout, tied competitors receive the same number of points. At the end of the competition, the competitor who scores the lowest sum of points is first and so on, the others.
- c) In the event that two or more competitors are on equal points in the general leaderboard, the final placement will be determined by counting the number of best places in each workout; in the event of a further tie, the absolute best placement will be evaluated; if it is not possible to resolve the tie by applying these criteria, the best placement will be assigned to the youngest competitor and, in the case of the same age, to the competitor who registered first for the event. In no case there will be any direct playoff matches.
- d) During all stages of the competition, the competitors' performances are verified by one or more judges in accordance with the movement standards described on the official website of the event and with the criteria communicated by the judges during the competition.
- e) At the end of the workout, to validate the score assigned by the judge, the participant must sign the scorecard; in the event of disputes, the competitor must reject the score card and immediately appeal to the Director of the Competition.

Data relating to the health of the person concerned may also be processed (data on pathologies obtainable from medical certificates or declared directly by the person concerned, or for Covid-19), where strictly necessary for the purposes of registration and participation in the event. In such cases, the consent of the interested party is required for participation in the event and failure to perform the same prevents the completion of the registration. The data controller is the Organizer: Just Better ([www.justbetter.it](http://www.justbetter.it)).

### **Purposes and conditions of the processing**

The use of the personal data indicated above is inherent in the sporting and public nature of the event, in its organizational needs and in the provision of services provided to the participant. The Organizer uses and processes the data, also through its technical and service partners and the companies connected to it, for the following purposes: registration for the competition, formulation of the list of competitors, conduct of the race, formation of the ranking, publication of results and everything related to the organization and promotion of the event, including sending communications to participants.

In addition to the aforementioned purposes, the Organizer uses the data for the necessary sharing needs with the insurance company and with the partners of the event.

The prerequisites for processing are therefore constituted by the organization and carrying out of the sporting event, by the registration of the participants, by the consent of the interested party, by the pursuit of the legitimate interest of the Organizer and its commercial partners and by any other fulfillment imposed by law or to protect the participant's right to life.

The Organizer again draws the attention of the participant so that it is undisputed that during the course of the event videos and photographs will be taken, given the provisions of Article 14 of the Regulations and for the purposes described in detail. The authorization to shoot one's image in the context of the event is a necessary requirement to participate in the event itself: therefore, the failure to authorize the use of one's image for the aforementioned purposes, as required by Article 14 of the Rulebook, implies the impossibility of registering for the event.

### **Communication and dissemination of data**

The Organizer informs the participant that the event is also organized and managed through its own operators, technical-IT managers, telematic platforms and with the support of sponsors. Some of these services may require or require the registration of the interested party on the partner's platform or in any case processing carried out by the partner as an independent data controller; in such cases, the interested party is invited to carefully read the privacy information provided by the partner. The interested party can know the list of partners and sponsors at any time by writing to the Organizer.

In consideration of the public nature and purpose of the event, the participant also acknowledges and accepts that the data relating to their image, their results or their position in real time, can be made publicly accessible by dissemination on the Organizer's channels, sponsors and service partners of the event and / or communicated to third parties for reporting, documentation and promotion purposes.

### **Consent for the use of the image**

With the specific and free consent of the interested party, the Organizer may take advantage of the footage that includes his image for the promotion of the event and other events organized by the Organizer.

### **Processing for marketing purposes**

By registering for the event, the participant makes his e-mail address available to the Organizer, which can be used by the Organizer without the prior consent of the participant, to send him communications relating to the event, upcoming events or in any case relating to the products of the sponsors of the event itself. The Organizer has the right to send communications from sponsors to the participant's e-mail address, without the prior consent of the registered competitor.

### **Data retention and data processors**

The participant's data will be stored in the Organizer's computer archives and protected by appropriate security measures in line with the provisions of Article 32 of EU Regulation 2016/679. The data will be kept for the time necessary in relation to the purposes for which they were collected and possibly for a further period of time if the retention of the data is necessary for the protection of a right of the Organizer or a third party.

### **Transfer of data outside the EU**

In the case of international data transfers starting from the European Economic Area (EEA), where the European Commission has recognized that a country not belonging to the EEA is able to guarantee an adequate level of data protection, the data of the interested party may be transferred on that basis. For transfers to countries not belonging to the EEA whose level of protection has not been recognized by the European Commission, the Organizer will rely on an exemption applicable to the specific situation or will implement one of the following measures to ensure the protection of your data: contractual clauses standards approved by the European Commission; binding corporate rules, where applicable. To obtain a copy of these measures or details on where they are available, you can send a written request as indicated in the following article.

### **Rights of the interested party**
